

Quarterly report 1 Q 2016

• Skjern Bank in Skjern

Stock Exchange Ann. no 5/2016 - 28 April 2016

Satisfactory growth in core earnings and lending volume

- Less than satisfactory profit before tax of DKK 6.7 million compared to DKK 20.8 million in 2015
- Impairment increased to DKK 17.7 million compared with DKK 9.9 million in 2015, the increase is solely due to increased impairment on the bank's agricultural exposures
- Exchange rate adjustments of DKK 0.4 million compared with DKK 10.9 million
- The Danish Financial Supervisory Authority held its regular inspection of the bank in April, which has not led to changes in the bank's impairment and individual solvency requirements
- Capital ratio of 15.7% and individual solvency requirements of 11.2%, corresponding to a 4.5 percentage point coverage
- Solid liquidity reserves of DKK 881 million, corresponding to 148.9%
- Core earnings, calculated as profit before tax, exchange rate adjustments and write-downs for the full year, are still expected in the range of DKK 100 - 110 million

Management's report

SSkjern Bank achieved a less than satisfactory profit before tax in the first quarter of DKK 6.7 million. The results were characterised by a maintained level for net interest income, increased net fee income, but sharply reduced exchange rate adjustments and an increased level of impairment as a result of large write-downs in the agricultural segment.

In April 2016, Skjern Bank was visited by the Danish Financial Supervisory Authority, who conducted a regular inspection. The inspection included a review of most of the bank's staff areas, including the management's work, the finance and capital area, the liquidity area, as well as internal audit, compliance and risk management work. The inspection of these areas resulted in a limited number of comments that will subsequently be published when the bank receives the final report from the inspection.

In addition, a large proportion of the bank's total lending, including the bank's largest customer, the bank's agricultural customers, as well as samples from the

bank's commercial and private exposures. The review process went quite satisfactorily and the Danish Financial Supervisory Authority agrees with the bank's calculation of the credit quality and impairment losses on individual exposures. The inspection covered about 41% of the bank's lending volume.

The inspection has also not resulted in any change in the bank's impairment needs.

A profit of DKK 6.7 million compared with DKK 20.8 million, where exchange rate adjustments were reduced by DKK 10.5 million and loan impairment was DKK 7.8 higher, indicating the strength of the bank's earnings base.

In the first quarter of 2016, the bank realised a satisfactory increase in net interest and fee income of DKK 4,880 thousand, corresponding to 8.7%.

The bank can report a satisfactory organic net inflow of loans of DKK 104 million compared to 31 December 2015. The development is due to a significantly solid growth in the business volume with private customers, including a very

satisfactory number of new private customers.

The bank's share of lending to private customers increased in one year from 30% to 34.6%, which complies with the bank's strategy in this area. The bank's long-term goal of further increasing the percentage of private loans remains unchanged.

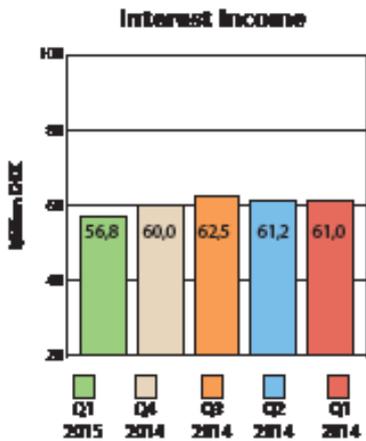

The bank's liquidity reserve has maintained a fully acceptable level of 148.9%, which also furthers the bank's goal of maintaining solid liquidity reserves primarily based on customer deposits.

The bank's capital ratio is 15.7% and the core capital is 13.7%. The individual solvency requirement is calculated at 11.2%, corresponding to a solvency coverage of 140.2%. Compared with the actual capital base of DKK 646.7 million, there was a surplus of DKK 187.3 million at the end of the first quarter of 2016. The management considers the excess capital reserves to be sufficient and

- Other charges and commissions

Write-downs on loans etc.

satisfactory, and it complies with the bank's prepared capital plan. Core earnings follow the annual budget and the expectations for net profit throughout 2016 are still in the range of DKK 100–110 million.

Net interest income

The net interest income is at the same level as of 31 March 2015. Interest income has decreased by 10.9% to DKK 50.6 million. The development is due to a decreasing average lending rate during the period as a result of the continued fierce competition in the lending market.

The interest expense was inversely reduced by 35.7% to DKK 11.2 million, the reduction is primarily due to repositioning of high-interest deposits to a lower average deposit interest rate.

Overall, the bank's interest margin remained largely unchanged in the first quarter of the year compared to the same period in 2015.

Fee income

Net income from fees and commissions has increased by DKK 4.1 million compared to last year.

Looking solely at income from fees and commissions, this has decreased from DKK 25.1 million in 2015 to DKK 21.7 million in 2014. In comparison to the first quarter of 2015, earnings from loan fees decreased by DKK 3.5 million and earnings from securities trading decreased by DKK 1.5 million. In addition, the earnings of the other commissions and fees increased by a total of DKK 1.6 million.

Expenses paid for fees and commissions are DKK 7.5 million less compared to last year. The increase is solely due to the bank's sale of shares in DLR Kredit A/S in the first quarter of 2015, which triggered a commission expense of DKK 7.5 million.

Net interest and fee income amounted to DKK 61.2 million, which is an increase

of DKK 4.9 million, corresponding to 8.7% compared to the same period last year.

Exchange rate adjustments

Exchange rate adjustments of securities and currency, etc. show a gain of DKK 0.4 million compared to DKK 10.9 million in the same period of 2015. The bank's portfolio of shares and bonds have been characterised by major uncertainty and decreasing share prices.

The capital gains are distributed with DKK 1.1 million from the bond portfolio and a loss of DKK 1.5 million from the shareholdings. In addition, exchange rates and derivative financial instruments achieved income of DKK 0.8 million in the same period.

Costs

Staff and administration expenses, etc. amounted to DKK 36.4 million compared with DKK 34.0 million in the same period in 2015, and have thus increased by DKK 2.4 million or 7%.

The increase is distributed with DKK 0.7 million from staff costs and a loss of DKK 1.7 million from administrative expenses. The staff costs increase primarily as a result of the increase in payroll tax and the general annual collective agreement increase. The increase in administrative expenses was primarily due to increased EDB expenses for Swipp and an increase in the bank's marketing costs.

Impairment

Net loan impairment, etc. amounted to DKK 17.7 million as of 31 March 2016 compared with DKK 9.9 million during the same period last year. In total there was a total of DKK 35.5 million in impairment, reversal of impairment from previous accounting years amounted to DKK 15.5 million, while recorded losses as of 31 March 2016 amounted to DKK 3.0 million, of which only DKK 1.7 million had not been previously written

Skjern Bank, Skjern

Supplementary capital distributed on exercise date (final closing date)

	1.000 DKK

Infinite	70.000
Total	169.480

down. Adjusted for interest on the impaired part of loans and amounts received from previously recovered receivables, yielding a net operating impact of DKK 17.7 million.

Devaluations on loans, etc. for the period correspond to 0.4% of the total loans and guarantees. The first quarter of 2016, as with the previous accounting periods, was characterised by the significant challenges in the agricultural industry.

The impairment need in 2015 was DKK 63.9 million and the management expects the total impairment need in 2016 to be at a reduced level.

Profit for the period

The total profit before tax amounted to DKK 6.7 million compared with DKK 20.8 million as of 31 March 2015. After taxes, the period's net profit amounted to DKK 5.6 million. The result is considered less satisfactory because of the low level of exchange rate adjustments and the elevated level of impairment. The management is pleased to note that the core earnings have improved and the core income has never been higher.

It is also satisfactory that the demand for lending has risen, with increased volume to follow, and that the total base costs have been reduced, primarily including interest expense.

The bank's management considers the results less than satisfactory, but considers the development quite positive.

Capital

Equity amounted to DKK 623.5 million compared to DKK 619.4 million at the end of the previous year.

After addition of subordinated capital contributions of DKK 169,5 million and adjustments for reduction in weighting and other deductions, the bank's capital base at the end of the quarter amounted to DKK 646.7 million.

The capital ratio was estimated at 15.7%, which is a reduction of 0.7% points compared to 31 December 2015. The reduction is primarily due to growth in lending, as well as ordinary weighting of issued hybrid core capital, which will

be repaid in May 2016.

The core capital ratio is 13.7%, compared to 14.4% as of 31 December 2015. Compared to 31 March 2015, the bank's capital ratio has increased from 14.4% to 15.7%, while the core capital ratio has increased from 12.4% to 13.7% as a result of increased equity and an uptake of new hybrid core capital in the autumn of 2015.

The necessary capital corresponding to the individual solvency needs is calculated at 11.2%, which is a decrease of 0.2% points compared with the end of 2015.

The bank thus has foundation capital with a sufficient surplus of 187.3% compared to the necessary capital, which is expressed by the bank's calculated solvency needs.

Major shareholders

The bank has two major shareholders, Lind Invest A/S, Aarhus and AP Pension Livsforsikringsaktieselskab, Copenhagen. Lind Invest A/S holds 24.73% of the share capital and AP Pension holds 20.75%. Both hold 5% of the voting rights.

Liquidity

Customer deposits amount to DKK 4,424 million, of which DKK 3,758 million is covered by the Danish Deposit Guarantee Scheme. The deposits are considered stable, since most of them come from base customer relationships. The liquidity surplus is at 148.9%, which follows the strategic goal of maintaining liquidity reserves at an adequate and acceptable level.

On 1 October 2015, the new LCR financial ratios came into effect. The key ratios show how financial institutions are able to honour their payment obligations within an upcoming 30-day period without access to market funding. The ratio is calculated by comparing the bank's cash reserves and liquid assets to the bank's payment obligations for the next 30 days calculated according to certain rules.

As of 1 October 2015, non-SIFI banks must have a coverage of at least 60%, gradually increasing by 10% as of 1 January 2016 and 1 January 2017, and 20% as of 1 January 2018, such that the ratio will be at least 100% as of 1 January 2018.

SIFI banks must already have a coverage of 100% as of 1 October 2015.

Skjern Bank has chosen to follow the same rules that apply to SIFI banks, which is why the bank's goal is to have the LCR ratio always be a minimum of 100%.

The bank achieved the goal and as of 31 March 2016 has an LCR financial ratio of 274%.

Skjern Bank shares

At the end of the quarter, the bank had 16,703 shareholders, which is a slight increase compared to the end of 2015. The share price of the bank's shares has decreased from a price of 33.5 as of 31 December 2015 to a price of 32.5 as of 31 March 2016. The market value of the entire bank has thus been reduced by 4.5% from DKK 322 million to DKK 308 million as of 31 March 2016. Trading in Skjern Bank shares continues to show a generally satisfactory share liquidity, because daily valuation is supported by a good number of trades.

Expectations

The bank's core earnings outlook for 2016 is still in the range of DKK 100 - 110 million.

„The Supervisory Diamond“

The Danish Financial Supervisory Authority's mandatory Supervisory Diamond specifies five indicators for banking activities with increased risk.

The bank's status for each indicator as of 31 March 2016 is calculated in the figure below, where the indicators established by the Danish Financial Supervisory Authority are also shown.

Skjern Bank continues to comply with all limit values as of 31 March 2016 and has at no time since the introduction of the Supervisory Diamond exceeded any of the limit values.

Liquidity reserve (min. 50 %):

Skjern Bank's liquidity reserve is significant and amounts to 148.9% as of 31 March 2016 compared to 174.8% as of 31 December 2015.

Funding ratio (max. 100 %):

The current funding situation leaves room for significantly more loans, since the bank's loans compared to deposits, equity and debt securities are only 69%,

which is at the same level as 31 December 2015, when the funding ratio was estimated at 67%.

Property exposure (max. 25 %):

Skjern Bank has an attractive industry spread, and compared to the real estate sector, the exposure is 13.7% precisely as of 31 December 2015.

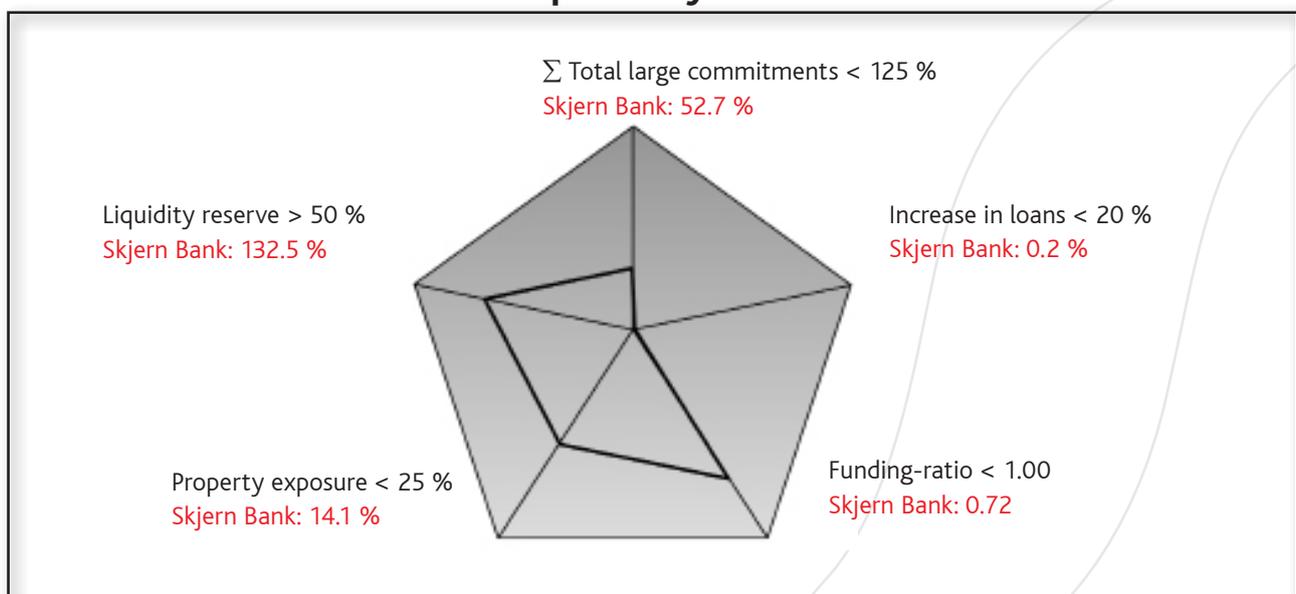

Major engagements (max. 125 %):

Major engagements are defined as the sum of major engagements that constitute more than 10 per cent of the capital base. Skjern Bank primarily targets private customers and small and medium businesses and as of 31 March 2016, it had two major customer engagements of a total of 25.0%, compared to 23.4% as of 31 December 2015.

Loan growth (max. 20 %):

As expected, the bank has realised a lending growth in 2016 and the lending growth can thus be calculated at 2.9% as of 31 March 2016 compared to -3.8% throughout 2016.

The Supervisory Diamond

• Skjern Bank, Skjern - Bank when you have time

Transactions with related parties

During the first quarter of the year, there have not been major transactions between Skjern Bank and the bank's related parties

Contribution to the Danish Deposit Guarantee Scheme

In the first quarter of the year, there has been no payment of contributions to the Danish Deposit Guarantee Scheme, which is due to the payments in the previous year having been sufficient so far in relation to the established objectives of the fund's reserves. During the same period last year, the bank had expenses of DKK 2.2 million for the Danish Deposit Guarantee Scheme.

Accounting practices used

The quarterly report was prepared in accordance with the Danish Financial Business Act, including the Danish Financial Supervisory Authority's Executive Order on financial reports for credit institutions and investment companies, etc. and additional Danish disclosure requirement for interim reports for listed companies.

The accounting practice used is unchanged compared to the annual report for 2015.

Events after 31 March 2016

No events have occurred after the balance date that are of significance for the assessment of the profit for the period.

Litigation

The bank is involved in disputes and litigation as part of its normal operations. The bank's risk in these cases is regularly assessed by the bank's lawyers and management. Provisions are made based on an assessment of risk of loss.

Yours sincerely,
Skjern Bank

Statement by the board of directors and executive board

We have on today's date discussed and approved the quarterly report for the period of 1 January–31 March 2016 for Skjern Bank A/S.

The report was prepared in accordance with the Danish Financial Business Act, including the Executive Order on financial reports for credit institutions and investment companies, etc. and additional Danish disclosure requirement for

interim reports for listed financial institutions.

We consider the accounting policies chosen to be appropriate such that the accounts provide a true and fair view of the bank's assets and liabilities, financial position and profit.

We consider the management's statement to contain a fair review of the de-

velopment in the bank's activities and economic conditions and a description of the significant risks and uncertainty factors by which the bank may be affected.

No audit or review of the quarterly report was conducted.

Skjern, 28th April 2016
